TABLE OF CONTENTS

NUMBER 1, JUNE 1979

Wright, J A, Jamieson, J C & Ceri, H, Studies on glycoprotein biosynthesis in concanavalin A-resistant cell lines. Defective formation of mannose-linked lipid intermediates 1

Shoyab, M, Organization of UV-induced repair-replicated DNA in the cellular genome of cultured human and mouse cells 9

Sandvig, K & Olsnes, S, Effect of temperature on the uptake, excretion and degradation of abrin and ricin by HeLa cells 15

Wolfe, J, Turner, R, Barker, R & Adair, W S, The need for an extracellular component for cell pairing in *Tetrahymena* 27

Curthoys, N P & Bellemann, P, Renal cortical cells in primary monolayer culture. Enzymatic changes and morphological observations 31

Berman, J, Perantoni, A, Jackson, H M & Kingsbury, E, Primary epithelial cell culture of adult rat kidney, enhancement of cell growth by ammonium acetate 47

Setlow, V P, Roth, S & Edidin, M, Effects of temperature on glycosyltransferase activity in the plasma membrane of L cells 55

Kent, C, Truesdale, N J & Constantine, L A, 5′-Nucleotidase activity in developing chick pectoral muscle 63

Herrup, K & Thoenen, H, Properties of the nerve growth factor receptor of a clonal line of rat pheochromocytoma (PC 12) cells 71

Lucas, C A, Edgar, D & Thoenen, H, Regulation of tyrosine hydroxylase and choline acetyltransferase activities by cell density in the PC12 rat pheochromocytoma clonal cell line 79

Arthur, C G, Weide, C M, Vincent, W S & Goldstein, E S, mRNA sequence diversity during early embryogenesis in *Drosophila melanogaster* 87

Middlebrook, J L, Dorland, R B & Leppla, S H, Effects of lectins on the interaction of diphtheria toxin with mammalian cells 95

Chen, D, Lin, H, Stahl, P & Stanley, E R, Clonal growth in vitro by mouse Kupffer cells 103

Pfeffer, L M, Murphy, J S & Tamm, I, Interferon effects on the growth and division of human fibroblasts 111

Ekblom, P, Lash, J W, Lehtonen, E, Nordling, S & Saxén, L, Inhibition of morphogenetic cell interactions by 6-diazo-5-oxo-norleucine (DON) 121

Treigyte, G & Gineitis, A, Specific changes in the biosynthesis and acetylation of nucleosomal histones in the early stages of embyogenesis of sea urchin 127

Carpentier, J-L, Gorden, P, Goldstein, J L, Anderson, R G W, Brown, M S & Orci, L, Binding and internalization of ^{125}I-LDL in normal and mutant human fibroblasts. A quantitative autoradiographic study 135

Nette, E G, Sit, H L, Clavey, W & King, D W, Isolation of viable reconstituted cells from human karyoplasts fused to mouse cytoplasts 143

Lefkowitz, D M, Johnson R C, Faulk, W P & Vincent, R A, Unscheduled DNA synthesis in primary cultures of human placentae 153

McGarrity, G J, Vanaman, V & Sarama, J, Comparative studies between microbiological culture and uptake of uridine/wracil to detect mycoplasmal infection of cell cultures 159

Moss, M, Asch, B & Schwartz, R, Differentiation of actin-containing filaments during chick skeletal myogenesis 167

Tiffany-Castiglioni, E & Perez-Polo, J R, The role of nerve growth factor in vitro in cell resistance to 6-hydroxydopamine toxicity 179

Anderson, K M, Bass, B, Rubenstein, M & Saclarides, T, Nuclear protein synthesis at permissive and non-permissive temperatures in a Chinese hamster ovary cell line with a temperature-sensitive defect in cytoplasmic non-mitochondrial protein synthesis 191

Burkholder, G D, An investigation of the mechanism of the reciprocal differential staining of BUdR-substituted and unsubstituted chromosome regions 209

Rizzino, A & Sherman, M I, Development and differentiation of mouse blastocysts in serum-free medium 221
Ohara, P T & Buck, R C, Contact guidance in vitro. A light, transmission, and scanning electron microscopic study 235
Magnaval, R, Bertaux, O & Valencia, R, Hetero- and euchromatin of synchronous *Euglena* cells. I. Physical fractionation of nuclei into differentially condensed chromatin 251
von Figura, K & Voss, B, Cell surface-associated lysosomal enzymes in cultured human skin fibroblasts 267
Dahl, R H & Morse, M L, Differential metabolism of mannose by Chinese hamster cell lines 277
Chen, S-H S, Relationship between phosphatidylcholine biosynthesis and cellular commitment in concanavalin A-stimulated lymphocytes 283
Chu-Der, O M Y & Ortwerth, B J, Lys-tRNA$_4$ and cell division. Changes in lys-tRNA during the growth of mouse L cells 291
Sopina, V A, Ivanova, S B, Lipskaya, A A, Bers, E P, Vodop'yanova, L G, Afon'kin, Y S & Kozlov, A V, A study of histones in amoeba nuclei by indirect immunofluorescence method 299
Hughes, R C, Pena, S D J, Clark, J & Dourmashkin, R R, Molecular requirements for the adhesion and spreading of hamster fibroblasts 307
Wylie, C C, Heasman, J, Swan, A P & Anderton, B H, Evidence for substrate guidance of primordial germ cells 315
Söderström, U-B, Simmingsköld, G, Norberg, B, Bäck, O & Rydgren, L, Analysis of polymorphonuclear leukocyte (MN) migration by the leading-front technique. Random locomotion and chemotaxis 325
Skutelsky, E & Bayer, E A, The ultrastructural delineation of cell growth and division processes using the avidin-biotin complex 331
Henius, G V, Laris, P C & Woodburn, J D, The preparation and properties of cytoplasts from Ehrlich ascites tumor cells 337
Ng, W S, Ng, M H & Ho, W K K, Structural requirements of phosphatidyl choline in arresting lymphocyte stimulation 347
Edgar, D, Barde, Y-A & Thoenen, H, Induction of fibre outgrowth and choline acetyltransferase in PC12 pheochromocytoma cells by conditioned media from glial cells and organ extracts 353
Richter, A & Hand, R, DNA replication during a serum-induced S phase in primate CV-1 cells 363
Pouyssegur, J & Pastan, I, The directionality of locomotion of mouse fibroblasts. Role of cell adhesiveness 373
Lehnert, S, Changes in morphology and cell cycle traverse induced in CHO cells by methyl–isobutyl xanthine 383

PRELIMINARY NOTES

Mullins, J M & McIntosh, J R, Birefringence of the mammalian midbody 395
Moore, P B, Sherblom, A P & Carraway, K L, Gelatin of sarcoma 180 extracts. Membrane involvement and the elimination of the temperature dependence by proteolysis 399
Isenberg, G & Small, J V, Particle movement on microspikes. Absence of direct linkage with actin filaments 406
Pennypacker, J P, Hassell, J R, Yamada, K M & Pratt, R M, The influence of an adhesive cell surface protein on chondrogenic expression in vitro 411
Dresser, M E & Moses, M J, Silver staining of synaptonemal complexes in surface spreads for light and electron microscopy 416
Hart, D A, Augmentation of zinc ion stimulation of lymphoid cells by calcium and lithium 419
Schmiady, H, Munke, M & Sperlin, K, Ag-staining of nucleolus organizer regions on human prematurely condensed chromosomes from cells with different ribosomal RNA gene activity 425
Farr, R M, Luckow, V & Sundharadas, G, Major nonhistone proteins of bovine lymphocyte chromatin. Identification of tubulin and actin 428
Lechner, J F & Kaighn, M E, Reduction of the calcium requirement of normal human epithelial cells by EGF 432
Hinkley, R E, Inhibition of sperm motility by the volatile anesthetic halothane 435
Shoyab, M, Dose independent uniform distribution of UV induced repair replicated DNA among DNA sequences of different reiteration frequencies in cultured human fibroblasts 439
Bullock, J G & Coakley, W T, The cell cycle thermal-inactivation sensitive stage of *Schizosaccharomyces pombe* is independent of 2-phenylethenol induced changes in S phase location 441
